

Good afternoon,

This is the initial call for Hams for the 2021 Hartford Marathon.

Currently the 2021 Hartford Marathon is planned to be an in person event, with some adjustments to support social distancing, and minimize interpersonal contact.

We had a collar crew meeting this past week and everything is still a go at the current time. Things might change should the state decide to button things down.

The biggest change this year is that both the full and half marathon will be run in Hartford, and the east side of the river. There will be no West Hartford course this year.

I am attaching a list of positions we need to fill. We are particularly in need of two sag drivers (down from the usual 3), and a replacement for the half marathon Bicycle Sag rider (who is moving to the Full marathon Sag position for this year.

Sag volunteers should have a good knowledge of the streets in Hartford, East Hartford, and South Windsor. The bicycle Sag will pretty much follow the half marathon Pack, so keeping on Course should not be much of an issue.

Otherwise, we have the usual rest area support positions, however, some of the locations have moved.

I have attached the list of locations.

At this point I would like to fill the positions. Later I will ask for contact information, as well as jacket size, and Call sign.

I will fill position requests first come first serve, with a priority to those who have filled the position in the past. I have lost two of my three sag drivers at this point, and hope the third one still wants the position. So at least one Sag is up for grabs.

Thanks, and I look forward to hearing you at the marathon again this year!
